

53. (new) The method as recited in Claim 32, further comprising the steps of:
- C) recording a plurality of images under various lighting and detection angles; and
 - D) evaluating said plurality of recorded images using digital image processing;
- whereby said biological preparation is analyzed.
54. (new) The method as recited in Claim 32, wherein said particles are coated on the surface and the coating enables a specific bonding to corresponding complementary structures of said preparation.

REMARKS

Entry of the Substitute Specification and new claims 32-54 is respectfully requested. If the examiner has any questions, he or she may contact the undersigned attorney at the number provided below.

Respectfully submitted,
SIMPSON, SIMPSON & SNYDER, L.L.P.
